PRODUCT DESCRIPTION

The ORKA Welder coverall is for serious welders – the extremely durable fabric protects at the highest levels and is the safest choice to protect you from welding related hazards. The Ultra durable nature of the coverall doesn't sacrifice the comfort. To complete the user experience it comes with kneepads and all the pockets you require to ensure that essential tool is never far away.

Protection – **Exceeding EN standards** - For peace of mind & protection of life.

Comfort – **Tailored Fit** - Can frustrated workers operate safely? Our coveralls reduce body stress & increase productivity.

Durability – **Low shrinkage & tough construction** – This makes our coveralls a long term option (holes in garments never were safe)
